Identification

Destination: Footwear, leather goods, garment

General informations: Foiled and wash lamb with a high fashion content for which the application of UNI10594 law "Characteristics of footwear leathers" is not applicable. The performances of the product will be verified and approved by the customer before the purchase order release

Characteristics

| | |
|---|---------------------------|
| Raw material | Lamb (Ovis Aries) |
| Tannage mode | Chrome |
| Dyeing mode | In drum passing |
| Colour Uniformity | As sample |
| Finishing mode | Foiled with washed effect |
| Realized colors | As per color card |
| Grain aspect | Foiled |
| Elasticity, Grain-tightening, Softening, Fullness | As sample |
| Size (sqf) | 4 - 7 |
| Thickness (mm) | 0,7 - 0,9 |

Technical value

| | | |
|---|----------------------------|---------------|
| Ball burst test - Elongation at break | ≥ 7,00 | mm |
| Colourfastness to rubbing (felt valuation) - chromatic Variation | after 100 dry rubbings ≥ 3 | I.G.S. degree |
| Colourfastness to rubbing (Leather valuation) - chromatic Variation | after 100 dry rubbings ≥ 3 | I.G.S. degree |
| Colourfastness to rubbing (felt valuation) - chromatic Variation | after 20 wet rubbings ≥ 3 | I.G.S. degree |
| Colourfastness to rubbing (Leather valuation) - chromatic Variation | after 20 wet rubbings ≥ 3 | I.G.S. degree |
| Water spotting - degree of swelling | after 30 minutes ≤ Light | Judgment |
| Water spotting - chromatic Variation | after 30 minutes ≥ 4 | I.G.S. degree |

Compliance declarations

The product is identified in section 4.1.1 of EN 15987:2015 standard and made in compliance with the following standards and regulations:

- Washington Convention dated 03/03/1973 validated with the Law 19/12/1975 n° 874 and adopted with the Regulation n° CE 388/97 related to the species protection of the wild flora and fauna through the control of their trade;
- Regulation n° CE 1907/2006 (REACH): Attachment XIV and Attachment XVII;
- Directive n° CEE 93/42 on medical devices adopted with the Legislative Decree n°46 dated 24/02/97;
- Chemical characteristics of acceptability provided for in UNI 10594 and UNI 10826;

IMPORTANT NOTICE: The product compliance to the Echo-Toxicological requirements cited in the above mentioned regulations n° CE 1907/2006, is guaranteed on the skins as they are sold from the tannery. There where the buyer should apply any further chemical treatments on the skins, in order to ensure the maintenance of the aforementioned requirements he must make sure of the compliance of the applied substances with the cited regulation and that they do not negatively interact with the ones already fixed on the skin fibres.

On the contrary, Russo di Casandrino tannery will be not legally responsible of the loss of its products compliance.

Note

1. The technical characteristics of the product that are not expressly reported in this document are not applicable or not determined. The technical characteristics of the product that are foreseen in the purchase order, any further complementary requirements not included in this technical sheet.
2. The performance requirements of the products express average values observed in our standard productions.
3. Russo di Casandrino tannery guarantees the compliance with the reported range of size and thickness even if, stated the natural Russo di Casandrino tannery guarantees the compliance with batch, marginal quotes of skins whose thickness and/or size range can lightly distance from the reported range of a 0.1mm and 0.25sqf, respectively. These skins cannot be the object of a complaint of the customer.
4. Russo di Casandrino tannery reserves the right to make changes to its products at any time and without any notification commitment. Russo di Casandrino tannery reserves the right to make requirements, law and regulation incident to the work safety, the product and the environment issued by the competent authorities.
5. For the products that present a laminated finishing, Russo di Casandrino tannery does not include, in its selling agreement, the ageing process, produced according to the regulation UNI EN ISO 17228 or its derivations.
